Congress. SENATE.-A message was received from the House, announcing its organization and the appointment of a committee to wait upon the President

On motion by Mr. BRIGHT, a similar committee was appointed on the part of the Senate, consisting of Messrs. Bright and Miller. On motion by Mr. Archison, to-morrow at

one o'clock was fixed for the election of Chap-

Mr. Foors gave notice of a joint resolution of sympathy for Smith O'Brien and the other exiled Irish patriots.

The Senate then balloted for the special committee on the Florida contested election, and Messrs. Bright, Berrien, Mason, Davis, and Pearce were chosen.

The message of the President was then re ceived; and its reading is now in progress.

House of Representatives.—The resolution introduced yesterday by Mr. HIBBARD, proposing that members select their seats by lot, was so amended that the drawing shall take place immediately after the reading of the President's message.

Mr. RICHARDSON offered a resolution autho rizing the Doorkeeper to provide the Reporters of full debates and proceedings with seats in front of the Clerk's desk, if it could be done without incommoding the House. After debate the resolution was rejected.

A resolution was offered to furnish the mem agreed to, giving to each member newspapers to the amount of thirty dollars.

commenced the reading of this document.

Union and Disunion .- The action of the caucuses of the two parties, respectively, in Congress, has given to the Whigs the vantageground for the moment. Whether they are to retain it or not remains to be seen. The Democrats were looking directly to the offices, and therefore had to be prudent; while the Whigs had nothing to lose by a courageous, bold, expediency-defying course. Our conviction is that in joint votes the two parties in each house will come up strong to the support of the Union upon any test, and that their voice will be so manifestly overpowering that the opposite sentiment will expire, or be hushed in stillness and impotence. Yet, when the value of the odds and ends of parties is estimated in Presidential will the legislation of the present Congress.

RECEPTION OF KOSSUTH.—The resolution preeffect that a joint committee of the two Houses of Congress be appointed to make suitable ararrival, and "to communicate to him assurances of the profound respect entertained for him by the people of the United States, and to tender to him, on the part of Congress, and in the name of the people of the United States, the hospitalities of the metropolis of the Union.'

General Foote was the mover of the resolution directing a government vessel to be sent for Kossuth, and it is proper that he should take the initiative in authorizing an appropriate to the great Northwest." national reception for him, which will doubtless prove brilliant and magnificent in the extreme.

MARYLAND SENATOR .- It appears pretty cer-G. Pratt. United States Senator fo ago for the remainder of the Hon, R. Johnson's meets this winter, (and which is Democratic,) doubt be elected and sent to Washington, when by that body. In the mean time, however, it is quite possible that the Whigs of the United States will have another election for Mr. Pratt of the America, at Cowes." to attend to.

THE CHURCH CASE IN PITTSBURG .- We learn from the papers of Pittsburg that some time ago the Corporation of that city, in cutting a street, rendered necessary by altering the grade. did considerable injury to the Roman Catholic Cathedral. Suit was brought to recover damages, but it was given against the church. It then went to the Supreme Court, which has just confirmed the decision in the court below. This of course. The road to heaven should never cross the track nor stand in the way of any of our earthly thoroughfares. We have trouble enough in getting along without such

Judge Young, the late Clerk of the House of Representatives, in retiring from that position, retains the confidence of his party, the respect of all parties, and the kindliest feelings and most sincere esteem of the entire people of Washington city.

The carpenter shop of Mr. Garrett, on 41 street, near C, and the two adjoining frame destroyed by fire last night. Within the carpenter shop were the tols of several journeymen, Mr. G.'s own tools, and a quantity of timber, upon which the labor of half a dozen hands had been expended for several weeks. Mr. G. was only partially insured, as we are informed. The rear portion of the dwelling of S. S. Williams, esq., was also somewhat injured. There is little doubt of an incendiary's having fired these buildings; and it is with great pleasure we observe that his honor the Mayor has promptly offered a liberal reward for the conviction of the offender

city, having some time back purchased a lot in dred dollars, upon the change of the location of pany for fourteen thousand dollars !- Rep.

VENTILATION OF CHURCHES, &c .- "We rarely visit a church, either in this city or elsewhere, the Philadelphia Evening Bulletin remarks, "that we do not become sensible of an insuffihot air from a furnace poured continually into the building. Five hundred or a thousand persons, packed into a church, and expiring carbonic acid gas continually, produce, at the end of two hours, an atmosphere that almost rivals that of the grotto del Cana. Let any one suddenly enter such a church, on a bright frosty morning, after the congregation has been assembled for some time, and he will perceive the difference in the air he breathes, with the very first inhalation. Yet delicate females, persons in consumption, growing children, aged persons, and others to whom foul air is poison, run this risk, week after week, without suspecting their danger. Few things require reform so much as the ventilation of public edifices. Dwelling-houses are generally bad enough—though fortunately they are rarely crowded; but our churches, lecture-rooms, and halls for concerts, are be-

youd description vicious in this respect." Previous to Mr. Fillmore's coming to reside n the Presidential Mansion, there was a large hot-air furnace in the basement, with which the parlors and upper apartments were heated. This furnace stood in a very small room, occupied by the colored persons as a kind of social hall. Now, with what were the upper rooms warmed? The heat from the furnace, to be sure. But what was that heat? Why, nothing but the air that had been many times inhaled bers with newspapers; and this gave rise to a by the negroes below, and that had acquired discussion, involving the subjects of economy anything else than healthful properties or a and extravagance. Finally, a substitute was pleasant odor! As soon as Mr. Fillmore took possession of the house, he caused this furnace to be supplied with fresh air conducted in tubes The President's message was received at from the exterior of the building, and thus refifteen minutes to two o'clock, and the Clerk moved a source of both unpleasantness and probable disease.

> At the present moment, this reform is needed in many houses of this city. The furnace occupies a crowded apartment below, and the important parts of the house are filled with an impure atmosphere from the start, without reference to its impairment by the lack of ventilation above.

THE CITY OF NEW YORK .- Its progress is beyond all calculation-in population, wealth, and profitable enterprises. "The arrival of a steamer every other week from California." the Herald remarks, "with one, two, or three millions of gold dust, during the last two years and a half, has produced, and will produce, an extraordinary effect on the prosperity of this metropolis. It is like the opening of a new contests, that issue may be less perplexed than world, throwing its riches into her lap. The momentum given to everything in this city by California and its vast wealth is unparalleled sented by General Foote yesterday was to the in the history of commerce throughout the world. Our vast lines of magnificent steamships have been pushed into existence by the rangements for the reception of Kossuth on his gold of California. The city has been almost of the medical department upon his election. rebuilt; the whole country for hundreds of miles has felt the effect of these discoveries on the Pacific, as well as Boston, Philadelphia, and other inland cities. It is true, also, that certain other portions of the country, as far as New Orleans, have not been benefited to so great an extent. The capital of the Southwest has lost some of its trade not only to California, but by the opening of railways from New York

A GRAND PANORAMA.-Jenny Lind is no humbug, if the "fire annihilator" is; and Barnum is just now producing a grand affair in the shape tain that the Democrats of Maryland purpose of a moving picture of the World's Fair, which contesting the election of Hon. Ex-Governor is no humbug. The editor of the N. Y. Morning Star has seen it, and describes it as an Maryland. Mr. Pratt was elected two years enormous and elegant panoramic painting. "We have no reason to envy now those who term, and for the six years' term, commencing have visited this wonder of the 19th century." in last March. The Democrats contend that he remarks; "we could not have been more the Legislature had no right to elect a Senator gratified had we walked the Crystal Palace itfor the long term; that the Legislature which self, for here is a striking likeness of its every part-we can sit comfortably in one place and has that legal right. Another Senator will no gaze on all its passing wonders. Here is the whole Transept; here is the Nave; here is the the whole matter will be brought up and settled Grand Opening; here is every department and every object of interest placed before our eyes, besides a view of London and of the yacht race

> Kossurn .- Accounts by the Washington state that the principal cause of Kossuth's detention in England arises from the necessity of his providing means of subsistence for a number of his unfortunate fellow countrymen who are in London, and to arrange and apportion to their wants the results of a subscription got up for their benefit in London and Manchester, the application of which is confided exclusively to Kossuth. He would certainly embark on board the Humboldt, on the 20th, and will be accom panied by Madame Kossuth, M., and Madame Pulsky, and by the remainder of his officers and Secretaries, in all thirteen persons. A great demonstration was to take place at Southampton on the occasion of his departure from the English shores.

We were asked yesterday if we were registered among the voters of the city. We did not know-had never seen or heard of the monds, for the crime of murder. New York is published list-don't visit barber-shops, and bar-rooms but seldom-think the publication and executions. Of course she is thereby beinadequate-haven't time to take charge of the coming very humane and moral. houses, belonging to the same gentleman, were Corporation affairs and assist the National Administration in its business too. So Mr. Lenox must see to it. In the meantime voters had better look to the preservation of their sacred right of access to the ballot-box.

> The Troy (Pike county, Ala.) Palladium flies at its masthead-" For President, Hon. R. F. Stockton, of New Jersey; for Vice President, James C. Jones, of Tennessee." Good men these, beyond a doubt, if the politicians will only think so.

The Pennsylvanian will no doubt continue to be an able and interesting journal, as before 11 o'clock, when possible. VALUABLE INVESTMENT .-- A gentleman of this it has been in past times; but we could not help feeling this morning as we opened it that the rear of the late railroad depot for four hun- the editor of an agreeable, intelligent and popular journal, who resigns his post for any office the depot he sold said lot to the railroad com- in the nation's power to confer upon him, is guilty of a very great condescension.

Another Presidential Candidate. The New York Herald, of last Tuesday, has the following paragraph in its Washington cor-

respondence: "Commodore Stockton was here last we cient ventilation. After remaining one or two hours, especially if the edifice is crowded, the coming out into the open air is almost like passing from the abodes of death to those of life. Especially is this true in the winter season, when the windows are kept closed, and some with a triumphant American squadron under with a triumphant American squadron under his naval commission. There is a higher des-tiny for Stockton than the Senate. He possesses all the great qualities of Jackson; and he would make a bold, splendid, dashing President."

Commodore Stockton possesses all the elements of popularity and success. Sagacious, bold, fearless, and generous, the friends he makes are ever ardent and true, while his adversaries are seldom disposed to court a contest with him. Of fifty-two cards in a pack, he is a knowing man who can by fair means tell which will turn up as the trump; but we have never heard, nor do we expect to hear, any one complain of the luck that brings up Jack, even a genuine high-souled Jack Tar! Would it not be a precious sight to see such a one in command of the glorious old ship of State?

The Supreme Court. Yesterday being the first day of the annual term of the Supreme Court, the following Judges took their seats on the Bench at noon Chief Justice TANEY, Justice McLEAN, Justice CATRON, Justice NELSON, and Justice CURTIS. A quorum being present, the Court was for mally opened, and soon afterwards adjourned to meet again to-day .- Intelligencer.

A STONE FOR THE MONUMENT.-The seven thousand five hundred pupils of the public schools of Baltimore have had a handsome block of marble prepared for insertion in the National Washington Monument. It is four feet in length and two in width, and contains suitable embellishments and inscriptions, with the motto, "Let him who bears the palm merit it."

[Republic. Seven thousand pupils of the public schools of Baltimore! If the untutored peasant of Europe loves the scenes of his poverty and degradation, the land in which he is cut off from the social and political rights accorded him by his Creator, how should an American, protected and educated by the bounty of his country, regard that country and its sacred laws and institutions! Could we realize our true condition, as compared with that of the people of any other nation on earth, the sentiment of gratitude would stand as a sentinel at the heart of every American, to repel with contumely even the thought of disaffection and treachery. Our "partial evils," if they exist, would cease to be remembered as wrongs, but would be proudly borne as the exalted evidences of our truth and patriotic fervor.

We learn that at a meeting of the faculty of the medical department of Georgetown College, held December 1, Dr. Du Hamel, late of Prince George's county, Maryland, was unanimously elected prosector and adjunct to the chair of surgery, now held by Professor Leiberman. Dr. D. has very recently located among us, and we congratulate him and his associates

A CANDIDATE FOR THE WHIGS .- The Baltimore American of this morning, in quoting the rumor, and the denial thereof, that Mr. Fillmore had declared he would not be a candidate for this office, says:

"Mr. Webster has already been nominated in Massachusetts; General Scott is frequently and warmly spoken of in various quarters, while Henry Clay has troops of friends. The claims and merits of all these gentlemen, and perhaps of one or two more, will be submitted to the National Convention, and the decision of that body will be regarded as final and binding upon every true-hearted Whig in the land."

THE LARGEST HOTEL IN THE WORLD .- The New York Commercial contains a notice of the magnificent building now finishing as a hotel, on the corner of Prince street and Broadway, to be called the Metropolitan, and to be conducted by Simeon Leland & Co. It is to open about the first of June, or a little earlier. Its aggregate frontage on Prince street and Broadway is 526 feet. It is designed to accommo date from six to eight hundred guests. The proprietor of this monster building is P. T. Barnum, of course! It will cost about half a million of dollars, and the furniture and outfits about \$75,000.

Great Medical Discovery!

DR. J. S. ROSE'S NER VOUS CORDIAL,
FOR ALL NERVOUS CONDITIONS OF THE SYSTEM.—I first discovered this preparation in 1840, since which time I have found but little difficulty in curing most NERVOUS DISEASES, but very recently I have added an ingredient which acts like magic in rendering my NERVOUS CORDIAL far more certain in curing Nervous Tremor of the Muscles, Shaking of the Head, Palpitation, Flatulence, Heart-burn, The Dolor, or Pain in the Face, with Twitchings of the Muscles or Flesh, Wakefulness, Heart Diseases, Neuralgia, and for the mind or body, affected by care, labor or study. This truly wonderful Medicine, from its peculiar happy effect in allaying the most violent Nervous affections, and completely eradicating them from the system, may justly be termed the grandest discovery in the science of Medicine. It subdues and averts all those NERVOUS DISEASES, over which the most profound medical skill has hitherto had no control. It is a grand restorer in building up a weak constitution, already worn down by disease and debilitated by other Medicine; its invigorating properties act like a charm, and its beneficial effects are almost miraculous. The weak, the nervous, and those suffering with constant pains and uneasiness, are frequently cured by using a single bottle.
